Technology Partners

Past Performance

HAJV customers include US Army, US Marine Corps, Joint Chiefs, US Department of Agriculture, Food and Drug Administration, Consumer Product Safety Commission, Postal Regulatory Commission, Nuclear Regulatory Commission, Pan American Health Organization and Defense Intelligence Agency.

What Our Clients Have to Say About Us

Using proven technologies, provided by our technology partners, HAJV is able to quickly modernize business solutions for customers. We follow an Agile methodology to deliver user-centered solutions as we have done for many organizations including, but not limited to, those listed below:

"I am so very impressed with your work day in and day out. You all are making the Marine Corps better with every move you make!"

"Armedia automated our business processes resulting in over 40% improvement in efficiency in managing events and greatly reduced errors from manual processes helping to result in FederalConference.com winning the 5-year re-compete of our contract."

We are extremely pleased with the solution that Armedia provided us... successfully complet[ing] the task of migrating over 3 million pages of hard copy files into a secure hosting document management environment. The simple, yet functional user interface allows our employees to quickly and efficiently search and find the information they need to do their job."

"EPIC is well named. I just went through it, and it is truly "EPIC." Great work to you and the team, really revolutionized the site in just weeks. The organization, the SEARCH function (LIFE CHANGING!!!), home page content, and the look and feel. All great."

Sample Clients

Our Solution Enablers

ArkCase

A modern, configurable IT modernization platform used to accelerate the development of business solutions.

Armedia Content Cloud

A FedRAMP-moderate content services platform that leverages ArkCase, AWS, Alfresco, Documentum, and Ephesoft for document, business process, case, imaging, and records management.

Caliente

A Migration tool to streamline large scale content migration initiatives.

CROSS

The Command Records Operational Support Site (CROSS) is a SharePoint tool designed to standardize the approach to meet all programmatic RM needs across an enterprise.

EPIC

EPIC is a SharePoint based, collaboration site, proven at the USMC.
